called to testify, and she showed no hesitancy in declaring that she and her son Posey's life. She knew young Posey for a long time, she said, because he was a cousin to her children.

"Where is Hubert Posey now?" asked ex-Senator Adrian Posey, who, with Representative Sydney E. Mudd, is her counsel. "He's dead," was the answer.

"How did he die?" asked Mr. Posey. "I killed him," she declared in a tone of

voice which could be heard throughout the

"I can't remember the exact date," she continued. "because I have hardly known one day from the other since the time I and Henry met him near Indian Head. He had been going regularly with my daughter for four years. He was knocking around with her for six years, and when she was seventeen years old he asked her to marry him when he became twenty-one years old.

What do you mean by knocking around with her?" asked the counsel.

"He was coming to see her, I mean. He was sparking her for to be his wife. I heard him make the promise myself. Sis went to see Nanie Leland. Hubert's sister, and she seen she was in trouble. Hubert set last Thanksgiving day as the time for the marriage, but he did not come for the ceremony. Sis was there at Mrs. Leland's house for to get married, but Bert was not. The wedding did not take place, and we went home again."

Story of the Killing.

Mrs. Bowie said that her son and daughter saw Posey later, but he still refused to carry out his alleged promise to marry Priscilla. She then told of the shooting on January 18.

"We went up the road to meet him," she related, 'to talk to him and advise him to come and marry Sis. He admitted that he offered to marry her, but he said that he did not want to get married. I told him if he did not marry my daughter I would shoot him, and I did shoot him. He said he was not going to marry her, and I shot. Before I shot him I had him by the coat, but he jerked away from me and a stir in the room as she was called to the was running when I fired. I had walked stand and intrusted the care of the infant up to him a few minutes before, and he to her mother. At first she appeared to be walked away from me before I could grab because he was not able to take care of a wife. I said I would pay for it all, and would even pay for the preacher. My son told him that he must get married, and if he wanted to leave Sis later he

could get a divorce." A number of letters said to have been written by Posey were introduced as testimony at this stage of the proceedings, in which it was shown that Posey had declared his intention of being married to the Bowle girl. Mrs. Bowle said that she had read some of the letters. Her daughter became ill about August 8, she said, and on that day she told her that she and Posey were to be married.

"I thought he was going to carry out his promise," she continued, "and did not say anything to him. Sis told me that the wed-

ging was to take place at Mrs. Leland's."

Hugh Posey Is Removed.

As Mrs. Bowie continued her story, Hugh Posey, father of the young man who was killed, arose from a seat in the rear of the courtroom and started for the rail. Glaring steadily at the witness he was stopped only by Representative Mudd, who jumped from his seat, and asked that he be re-moved from his position. AN ALLEGED CROOK CAUSED PANIC IN BOLD ATTACK.

Special Dispatch to The Star.

NEW YORK, July 11 .- After fighting desperately with a policeman and a street car conductor who accused him of being a pickpocket, William Paker, a dapper young man, created further excitement when taken to the new Tenderloin poli station, In West 20th street, early this morning, by springing toward the conductor and threatening to kill him. The prisoner, in the presence of a number of policemen, grabbed the conductor by the throat and felled him. The policemen separated the men and Baker was locked up.

"You all know that I'm a crook." Baker is alleged to have shouted in the police that car. You got me wrong this time. If I'd had a gun there would be a dead one around here now."

According to William Hubbard, the conductor. Baker boarded a southbound 6th avenue surface car, accompanied by a woman and two other young men. Hubbard, who says he was familiar with Baker's from the stand her son was called to tes-tify. Henry Bowie is a man of small record, kept a close watch on the party. There was an old Hebrew peddler on the car who had fallen asleep, and Hubbard says soon after the car passed 24th street he saw Baker edging up to the old man and apparently trying to get into his

Baker fled, but the woman remained and kicked the conductor and the policeman several times in the ribs. She finally got off the car and succeeded in escaping. After Hudson and Hubbard had subdued the pickpocket the motorman was told not to stop the car until he reached 20th street. At this point Baker again showed fight and Lieut. Bishop of the new Tenderloin station, who heard the disturbance, ordered two of the reserves to the scene. They alleged that it was necessary for them to drag Baker from the car and carry him to the station house. .

Church in America.

Today there are no parishes or dioceses n France, and here and there instances have arisen where local municipalities have sought to control absolutely the number; and length of the church services within their municipal jurisdiction. The situation cannot last, and, while the French government will doubtiess ever seek some control over the church, I look to see the state take a more neutral ground that in the end the French church may attain a freedom from hampering dependency on the government

for herself and her institutions."

Abbe Klein said that the progress of the Catholic Church in America was in keeping with the marvelous advance of the people and the nation's development, and that, while the head of the Catholic Church, the pope, would ever be the Bishop of Rome, he thought the future would find the dominant forces in the Catholic Church in

lost to the Catholic Church, and notwith. standing the seemingly irreconcilable differences now existing between the French government and the Vatican, Abbe Felix Klein, the French clerical writer and scholar, who has fust arrived here, said yesterday, the Church in France would survive "the exactions and spoliations of the state," and, with the Catholic Church in America as a model, in the future would develop a strong spirit of freedom and would throw off its dependency on the French government. Abbe Klein is here to give further study to American church institutions, together with the country's moral and civic development, and he hopes to obtain such knowledge as may aid in the solution of the difficulties which now beset the Church in France. The abbe, who has made a profound study of the church system in America, and who has written many works of note on religious life in this country, believes that America will be the dominant power in the Catholia Church in the future unless there is a subsidence of the disposition on the part of the Latin governments to take control of the church. Abbe Klein will be here for four months, and will lecture on the
